Quiz 4

Name : \_\_\_\_\_

1. (10 points) Write **jQuery** (*quiz.js*) and **CSS** (*quiz.css*) code to modify the following webpage. The **title** should initially have a *red* background color and *white* text. When the **title** div is clicked the **body** div, *initially not displayed*, slides down from the title. The **title**'s background switches to *blue*, and the text becomes *black*. If the **title** is clicked again, the **body** fades away, and the **title** resumes its *red* background, *white* text state.
